

CANNATHRIVE
CONSULTING

**SEEDING THE FUTURE —
CULTIVATING INNOVATION**

Your Leader in Cannabis Consulting Services

We offer production consulting services to everyone from small startups to major players in the cannabis industry. As long as you are a marijuana licensed producer (LP), we're here to help. Our services span indoor, greenhouse and outdoor production.

Passionate about agriculture, our team of experts (which includes several Master Growers) has the resources your business needs to make its mark and increase shareholder value. We'll train your team and provide your facility with the right gear to maximize every crop. Gain insight into seeding, potency proficiency and pest control; build a winning facility with the aid of our industry-leading suppliers. With our hands-on consultation approach, your business will be flowering in no time.
